SETTING THE TONE
On the morning of the march, members and staff met at OSA headquarters in Washington, D.C., to create signs and placards for the march and talk science policy.

MARCH TO THE CAPITOL
Thousands of participants in the D.C. event, including OSA members, staff, and leaders, marched from the area of the Washington Monument to the U.S. Capitol.

STANDING UP FOR SCIENCE
OSA members and staff joined tens of thousands worldwide in the March for Science on 22 April 2017.

TEACHABLE MOMENTS
OSA and APS jointly sponsored a “Physics of Superheroes” teach-in before the march, in which the University of Minnesota’s Jim Kakalios highlighted—with the aid of ViewMaster slides—how science crops up in unexpected places.
A WORLDWIDE EVENT
The March For Science was a worldwide event, with marches in Washington, D.C., and 610 other cities.
